

PHOENIX (PH)

T5 batten fittings complete with lamps and polycarbonate controller in an attractive point-of-sale carton.

The controller is made from polycarbonate, so it can withstand rough treatment with no risk of cracking or shattering.

The controller is ribbed on the inside for good looks and glare control. On the outside it is smooth, giving a wipe-clean finish.

APPLICATIONS

- Garages and workshops
- Kitchens
- Corridors and circulation areas

SPECIFICATION

- T5. Supplied with European brand colour 840 lamps
- ENEC control gear

CONSTRUCTION

- Robust steel body
- White gloss powder coat finish
- Polycarbonate end caps
- Polycarbonate controller
