special
occasions

At Poachers our standards of Food & Service mean everything to us. We are highly motivated towards giving our customers a great overall dining experience. Our goal simply is that our customers enjoy their time with us or dealing with us on every level.

Bandon is a picturesque, peaceful, safe place for locals and tourists only '7 miles from 7 beaches' as the crow flies. These natural amenities and places of interest in the town and surrounding areas make it an obvious stop off for those traveling from all over Ireland towards West Cork and Kerry. The West Cork Heritage Centre is one of the town's 'hidden treasure's and another is Poachers.

Our excellent reputation is built on presenting our customers with the finest and freshest seafood the coastline has to offer combined with excellent locally sourced seasonal ingredients. We hand prepare and serve these fruits of the sea in an unpreserved way; We source and select our prawns whole and live- not frozen, peeled and processed so our customers can enjoy them in their most natural and freshest way. We source and select fish 7 days a week only from people we know that either own day boats or buy from day boats. We grow many of our own salad leaves and hand make all our own breads and desserts. Our continuing education, experience and expertise in seafood is

unmatched in Ireland. Our kitchen team are lead by Head Chef Barry McLoughlin and they collaborate to create unique menus that are regularly changed to blend contemporary Irish cuisine with influences from around the world. We take great care and pride to cook our food, driven by our philosophy that produce of this quality deserves to look its appetising best when it is presented to our customers.
